NOTICE OF FILING OF MASTER'S REPORT

This Master's Report was filed with the Montana Water Court on the above stamped date. Please review this report carefully.

You may file a written objection to this Master's Report within **10 days** of the stamped date if you disagree or find errors with the Master's findings of fact, conclusions of law, or recommendations. Rule 23, W.R.Adj.R. If the Master's Report was mailed to you, the Montana Rules of Civil Procedure allow an additional 3 days be added to the 10-day objection period. Rule 6(d), M.R.Civ.P. If you file an objection, you must serve a copy of the objection to all parties on the service list found at the end of the Master's Report. The original objection and a certificate of mailing to all parties on the service list must be filed with the Water Court.

If you do not file a timely objection, the Water Court will conclude that you agree with the content of this Master's Report.

MASTER'S REPORT

The above-captioned claims appeared in the Preliminary Decree for the Musselshell River above Roundup (Basin 40A) issued on June 7, 2017. Claims 40A 179809-00 and 40A 179812-00 are owned by MC Land & Livestock Inc. The remaining claims are co-owned by George Cremer, Leo Cremer Jr. Cremer Rodeo Land & Livestock Co. objected to each claim.

FINDINGS OF FACT

1. On March 23, 2023, Objector withdrew its objections to claims 40A 179809-00, 40A 179812-00, 40A 179839-00, 40A 179859-00, 40A 179863-00, 40A 179864-00, 40A 181241-00, and 40A 181242-00. (Doc.¹ 8.00).

Priority Date Objections

40A 179854-00

2. Claim 40A 179854-00 appeared in the Basin 40A Preliminary Decree as a claim for stock drinking directly from a spring in the SENWNW of Section 20, T3N, R18E, Sweet Grass County.

3. The claim was decreed with a priority date of January 25, 1964. The Statement of Claim listed 1963 as the priority date, based on the Notice of Completion of Groundwater Appropriation attached to the Statement of Claim. The type of right was set as “filed”.

4. The priority date was modified during DNRC verification to the date the Notice of Completion was filed – January 25, 1964.

5. Cremer Rodeo Land & Livestock Co. objected to the priority date, stating:

Nelson Story arrived in Livingston, Montana including area of this ranch in December 1866 with over 600 head of cattle from Texas (The Crazy Mountain Museum and the Big Sky Words website). The first ranchers on the Musselshell were William Gordon and Perry, Sanford, and John Moore. William Gordon brought a small group of cattle to the Upper Musselshell in 1870 to winter there and by 1885 had over 1,200 head of cattle (Milton Ranch History). John Murphy started the 79 Ranch in 1879 and had over 10,000 head of cattle in the Musselshell drainage by 1883 Milton Ranch History. The priority date of this claim should be changed from 01/25/1964 to 12/31/1866. Livestock have been watering at the location of this claim to the present time. The source name also requires correction, the spring does not flow into a named source.

6. On March 23, 2023, Objector filed an affidavit from Matt Cremer (“the affidavit”). (Doc. 9.00).

¹ “Doc.” numerical references correlate to case file docket numbers in the Water Court’s Full Court case management system.

7. The affidavit includes a screenshot of the land patent for the N2 of Section 20, T3N, R18E, Sweet Grass County granted to Charles F. Willson on August 2, 1920.

8. Mr. Cremer states that:

My family has continuously grazed livestock on the land located at the place of use and point of diversion for this claim since 1915. Based on the land patent for the point of diversion and place of use for this claim and the continuous historical use by my family, the priority date should be modified from 1/25/1964 to 6/2/1920,

9. The June 2, 1920 priority date requested in the affidavit is a clerical error.
40A 179856-00

10. Claim 40A 179856-00 appeared in the Basin 40A Preliminary Decree as a claim for stock drinking directly from a spring in the SWSWNE of Section 2, T3N, R17E, Sweet Grass County.

11. The claim was decreed with a priority date of January 25, 1964. The Statement of Claim listed 1963 as the priority date, based on the Notice of Completion of Groundwater Appropriation attached to the Statement of Claim. The type of right was set as “filed”.

12. The priority date was modified during DNRC verification to the date the Notice of Completion was filed – January 25, 1964.

13. Cremer Rodeo Land & Livestock Co. objected to the priority date, stating:

Nelson Story arrived in Livingston, Montana including area of this ranch in December 1866 with over 600 head of cattle from Texas (The Crazy Mountain Museum and the Big Sky Words website). The first ranchers on the Musselshell were William Gordon and Perry, Sanford, and John Moore. William Gordon brought a small group of cattle to the Upper Musselshell in 1870 to winter there and by 1885 had over 1,200 head of cattle (Milton Ranch History). John Murphy started the 79 Ranch in 1879 and had over 10,000 head of cattle in the Musselshell drainage by 1883 Milton Ranch History. The priority date of this claim should be changed from 01/25/1964 to 12/31/1866. Livestock have been watering at the location of this claim to the present time. The source name also requires correction, the spring does not flow into a named source.

14. The affidavit includes a screenshot of the land patent for the S2NE of Section 2, T3N, R17E, Sweet Grass County granted to Barbara E. Mitchell on October 15, 1918.

15. Mr. Cremer states that:

My family has continuously grazed livestock on the land located at the place of use and point of diversion for this claim since 1915. Based on the land patent for the point of diversion and place of use for this claim and the continuous historical use by my family, the priority date should be modified from 1/25/1964 to 10/15/1918,

40A 179860-00

16. Claim 40A 179860-00 appeared in the Basin 40A Preliminary Decree as a claim for stock drinking directly from a spring in the SESENE of Section 2, T3N, R17E, Sweet Grass County.

17. The claim was decreed with a priority date of January 25, 1964. The Statement of Claim listed 1963 as the priority date, based on the Notice of Completion of Groundwater Appropriation attached to the Statement of Claim. The type of right was set as “filed”.

18. The priority date was modified during DNRC verification to the date the Notice of Completion was filed – January 25, 1964.

19. Cremer Rodeo Land & Livestock Co. objected to the priority date, stating:

Nelson Story arrived in Livingston, Montana including area of this ranch in December 1866 with over 600 head of cattle from Texas (The Crazy Mountain Museum and the Big Sky Words website). The first ranchers on the Musselshell were William Gordon and Perry, Sanford, and John Moore. William Gordon brought a small group of cattle to the Upper Musselshell in 1870 to winter there and by 1885 had over 1,200 head of cattle (Milton Ranch History). John Murphy started the 79 Ranch in 1879 and had over 10,000 head of cattle in the Musselshell drainage by 1883 Milton Ranch History. The priority date of this claim should be changed from 01/25/1964 to 12/31/1866. Livestock have been watering at the location of this claim to the present time. The source name also requires correction, the spring does not flow into a named source.

20. The affidavit includes a screenshot of the land patent for the SE, S2NE, and Lot/Tract 1 of Section 2, T3N, R17E, Sweet Grass County granted to Barbara E. Mitchell on October 15, 1918. Lot/Tract 1 of Section 2 is in the NENENE of Section 2.

21. Mr. Cremer states that:

My family has continuously grazed livestock on the land located at the place of use and point of diversion for this claim since 1915. Based on the land patent for the point of diversion and place of use for this claim and the continuous historical use by my family, the priority date should be modified from 1/25/1964 to 10/15/1918,

22. However, the land patent does not cover the point of diversion and place of use for claim 40A 179860-00. The affidavit does not explain why a land patent in the SE, S2NE, and Lot/Tract 1 of Section 2, T3N, R17E, Sweet Grass County supports use in the NW of Section 2, other than the patent is “in the area of the point of diversion and place of use.” The beginning of the affidavit also has a general statement that:

Stock had been grazed on this land prior to our family. Part of this land was part of the historic 79 Ranch Company and was grazed as early as 1879. Livestock were grazed throughout these sections historically and were not fenced from the springs, streams or tanks. Livestock have been grazed in these sections continuously prior to and throughout our ownership.

40A 179861-00

23. Claim 40A 179861-00 appeared in the Basin 40A Preliminary Decree as a claim for stock drinking directly from a spring in the NENWSE of Section 2, T3N, R17E, Sweet Grass County.

24. The claim was decreed with a priority date of January 25, 1964. The Statement of Claim listed 1963 as the priority date, based on the Notice of Completion of

Groundwater Appropriation attached to the Statement of Claim. The type of right was set as “filed”.

25. The priority date was modified during DNRC verification to the date the Notice of Completion was filed – January 25, 1964.

26. Cremer Rodeo Land & Livestock Co. objected to the priority date, stating:

Nelson Story arrived in Livingston, Montana including area of this ranch in December 1866 with over 600 head of cattle from Texas (The Crazy Mountain Museum and the Big Sky Words website). The first ranchers on the Musselshell were William Gordon and Perry, Sanford, and John Moore. William Gordon brought a small group of cattle to the Upper Musselshell in 1870 to winter there and by 1885 had over 1,200 head of cattle (Milton Ranch History). John Murphy started the 79 Ranch in 1879 and had over 10,000 head of cattle in the Musselshell drainage by 1883 Milton Ranch History. The priority date of this claim should be changed from 01/25/1964 to 12/31/1866. Livestock have been watering at the location of this claim to the present time. The source name also requires correction, the spring does not flow into a named source.

27. The affidavit includes a screenshot of the land patent for the SE, S2NE, and Lot/Tract 1 of Section 2, T3N, R17E, Sweet Grass County granted to Barbara E. Mitchell on October 15, 1918.

28. Mr. Cremer states that:

My family has continuously grazed livestock on the land located at the place of use and point of diversion for this claim since 1915. Based on the land patent for the point of diversion and place of use for this claim and the continuous historical use by my family, the priority date should be modified from 1/25/1964 to 10/15/1918.

40A 181243-00

29. Claim 40A 181243-00 appeared in the Basin 40A Preliminary Decree as a claim for stock drinking directly from a spring in the NWSWSW of Section 28, T5N, R16E, Sweet Grass County.

30. The claim was decreed with a priority date of January 25, 1964. The Statement of Claim listed 1963 as the priority date, based on the Notice of Completion of Groundwater Appropriation attached to the Statement of Claim. The type of right was set as “filed”.

31. The priority date was modified during DNRC verification to the date the Notice of Completion was filed – January 25, 1964.

32. Cremer Rodeo Land & Livestock Co. objected to the priority date, stating:

Nelson Story arrived in Livingston, Montana including area of this ranch in December 1866 with over 600 head of cattle from Texas (The Crazy Mountain Museum and the Big Sky Words website). The first ranchers on the Musselshell were William Gordon and Perry, Sanford, and John Moore. William Gordon brought a small group of cattle to the Upper Musselshell in 1870 to winter there and by 1885 had over 1,200 head of cattle (Milton Ranch History). John Murphy started the 79 Ranch in 1879 and had over 10,000 head of cattle in the Musselshell drainage by 1883 Milton Ranch History. The priority date of this claim should be changed from 01/25/1964 to 12/31/1866. Livestock have been watering at the location of this claim to the present time. The source name also requires correction, the spring does not flow into a named source.

33. The affidavit includes a screenshot of the land patent for the W2W2, SESW, and SWSE of Section 28, T5N, R16E, Sweet Grass County granted to Bertha S. Nevin on March 7, 1912.

34. Mr. Cremer states that:

My family has continuously grazed livestock on the land located at the place of use and point of diversion for this claim since 1915. Based on the land patent for the point of diversion and place

of use for this claim and the continuous historical use by my family, the priority date should be modified from 1/25/1964 to 3/7/1912.

40A 181244-00

35. Claim 40A 181244-00 appeared in the Basin 40A Preliminary Decree as a claim for stock drinking directly from a spring in the SESESW of Section 28, T5N, R16E, Sweet Grass County.

36. The claim was decreed with a priority date of January 25, 1964. The Statement of Claim listed 1963 as the priority date, based on the Notice of Completion of Groundwater Appropriation attached to the Statement of Claim. The type of right was set as “filed”.

37. The priority date was modified during DNRC verification to the date the Notice of Completion was filed – January 25, 1964.

38. Cremer Rodeo Land & Livestock Co. objected to the priority date, stating:

Nelson Story arrived in Livingston, Montana including area of this ranch in December 1866 with over 600 head of cattle from Texas (The Crazy Mountain Museum and the Big Sky Words website). The first ranchers on the Musselshell were William Gordon and Perry, Sanford, and John Moore. William Gordon brought a small group of cattle to the Upper Musselshell in 1870 to winter there and by 1885 had over 1,200 head of cattle (Milton Ranch History). John Murphy started the 79 Ranch in 1879 and had over 10,000 head of cattle in the Musselshell drainage by 1883 Milton Ranch History. The priority date of this claim should be changed from 01/25/1964 to 12/31/1866. Livestock have been watering at the location of this claim to the present time. The source name also requires correction, the spring does not flow into a named source.

39. The affidavit includes a screenshot of the land patent for the W2W2, SESW, and SWSE of Section 28, T5N, R16E, Sweet Grass County granted to Bertha S. Nevin on March 7, 1912.

40. Mr. Cremer states that:

My family has continuously grazed livestock on the land located at the place of use and point of diversion for this claim since 1915. Based on the land patent for the point of diversion and place of use for this claim and the continuous historical use by my family, the priority date should be modified from 1/25/1964 to 3/7/1912.

41. Claim 40A 181247-00 appeared in the Basin 40A Preliminary Decree as a claim for stock drinking directly from a spring in the SESWNE of Section 28, T5N, R16E, Sweet Grass County.

42. The claim was decreed with a priority date of January 25, 1964. The Statement of Claim listed 1963 as the priority date, based on the Notice of Completion of Groundwater Appropriation attached to the Statement of Claim. The type of right was set as “filed”.

43. The priority date was modified during DNRC verification to the date the Notice of Completion was filed – January 25, 1964.

44. Cremer Rodeo Land & Livestock Co. objected to the priority date, stating:

Nelson Story arrived in Livingston, Montana including area of this ranch in December 1866 with over 600 head of cattle from Texas (The Crazy Mountain Museum and the Big Sky Words website). The first ranchers on the Musselshell were William Gordon and Perry, Sanford, and John Moore. William Gordon brought a small group of cattle to the Upper Musselshell in 1870 to winter there and by 1885 had over 1,200 head of cattle (Milton Ranch History). John Murphy started the 79 Ranch in 1879 and had over 10,000 head of cattle in the Musselshell drainage by 1883 Milton Ranch History. The priority date of this claim should be changed from 01/25/1964 to 12/31/1866. Livestock have been watering at the location of this claim to the present time. The source name also requires correction, the spring does not flow into a named source.

45. The affidavit includes a screenshot of the land patent for the W2W2, SESW, and SWSE of Section 28, T5N, R16E, Sweet Grass County granted to Bertha S. Nevin on March 7, 1912.

46. Mr. Cremer states that:

My family has continuously grazed livestock on the land located at the place of use and point of diversion for this claim since 1915. Based on the land patent for the point of diversion and place of use for this claim and the continuous historical use by my family, the priority date should be modified from 1/25/1964 to 3/7/1912.

47. However, the land patent does not cover the point of diversion and place of use for claim 40A 181247-00. The affidavit does not explain why a land patent in the W2W2, SESW, and SWSE of Section 28, T5N, R16E, Sweet Grass County supports use in the SESWNE of Section 28, other than the patent is “in the area of the point of diversion and place of use.” The beginning of the affidavit also has a general statement that:

Stock had been grazed on this land prior to our family. Part of this land was part of the historic 79 Ranch Company and was grazed as early as 1879. Livestock were grazed throughout these sections historically and were not fenced from the springs, streams or tanks. Livestock have been grazed in these sections continuously prior to and throughout our ownership.

Source Name Objections

48. Objector also filed objections to the source name of claims 40A 179854-00, 40A 179856-00, 40A 179860-00, 40A 179861-00, 40A 181243-00, 40A 181244-00, and 40A 181247-00, as follows:

The source name also requires correction, this spring does not flow into a named source.

49. Springs, even those that do not flow into a named source, are named using the first downstream or down gradient named source. According to the DNRC Claims Examination Manual:

c. Unnamed Springs: A claimed spring without a name or with a claimed name that does not meet the acceptable standardization criteria is considered an unnamed spring. To establish a standard source name, identify the first downstream (or down gradient, if not connected) named source, even if far away from the spring. This puts the spring in a sub-basin, enhancing the usefulness of the database. [Rule 11\(c\)\(3\), W.R.C.E.R.](#)

All unnamed springs will be standardized on the worksheet to "Spring, Unnamed Tributary of _____" (using the first down gradient named source). Attach the spring to an

unnamed tributary even if not apparently connected such as an ephemeral stream. [Rule 11\(c\)\(3\), W.R.C.E.R.](#)

See Claims Examination Manual, VI, D.6.c.

PRINCIPLES OF LAW

1. A properly filed Statement of Claim for an existing water right is prima facie proof of its content. Section 85-2-227, MCA; Rule 10, W.R.Adj.R.
2. Prima facie proof may be contradicted and overcome by a preponderance of the evidence. Rule 19, W.R.Adj.R.
3. A preponderance of the evidence is evidence that shows a fact is "more probable than not." *Hohenlohe v. State*, 2010 MT 203, ¶ 33, 357 Mont. 438, 240 P.3d 628.
4. If prima facie status is overcome, the burden shifts back to the claimant to demonstrate historical use. *79 Ranch v. Pitsch*, 204 Mont. 426, 432-33, 666 P.2d 215, 218 (1983).
5. The party seeking to overcome the prima facie status of a Statement of Claim bears the burden of proof. *Nelson v. Brooks*, 2014 MT 120, ¶¶ 34, 37, 375 Mont. 86, 329 P.3d 558.

CONCLUSIONS OF LAW

1. The objections to claims 40A 179809-00, 40A 179812-00, 40A 179839-00, 40A 179859-00, 40A 179863-00, 40A 179864-00, 40A 181241-00, and 40A 181242-00 should be dismissed and the elements should remain as they appeared in the Basin 40A Preliminary Decree.

Priority Date Objections

40A 179854-00

2. Objector provided thin but sufficient evidence to meet their burden of overcoming the initial claim filing by a preponderance of the evidence. The priority date should be modified to August 2, 1920. Because the claim is no longer based on the groundwater filing, the type of right should be modified to “use”.

40A 179856-00

3. Objector provided thin but sufficient evidence to meet their burden of overcoming the initial claim filing by a preponderance of the evidence. The priority date should be modified to October 15, 1918. Because the claim is no longer based on the groundwater filing, the type of right should be modified to “use”.

40A 179860-00

4. Objector did not overcome the prima facie status of claim 40A 179860-00. The affidavit requests the priority date be modified to October 15, 1918 based on the land patent, however the land patent does not cover the point of diversion and place of use. Objector also did not provide sufficient other evidence supporting continuous livestock use at the point of diversion and place of use. The priority date for claim 40A 179860-00 should remain as it appeared in the Basin 40A Preliminary Decree.

40A 179861-00

5. Objector provided thin but sufficient evidence to meet their burden of overcoming the initial claim filing by a preponderance of the evidence. The priority date should be modified to October 15, 1918. Because the claim is no longer based on the groundwater filing, the type of right should be modified to “use”.

40A 181243-00

6. Objector provided thin but sufficient evidence to meet their burden of overcoming the initial claim filing by a preponderance of the evidence. The priority date should be modified to March 7, 1912. Because the claim is no longer based on the groundwater filing, the type of right should be modified to “use”.

40A 181244-00

7. Objector provided thin but sufficient evidence to meet their burden of overcoming the initial claim filing by a preponderance of the evidence. The priority date should be modified to March 7, 1912. Because the claim is no longer based on the groundwater filing, the type of right should be modified to “use”.

40A 181247-00

8. Objector did not overcome the prima facie status of claim 40A 181247-00. The affidavit requests the priority date be modified to March 7, 1912 based on the land patent, however the land patent does not cover the point of diversion and place of use. Objector also did not provide sufficient other evidence supporting continuous livestock use at the point of diversion and place of use. The priority date for claim 40A 181247-00 should remain as it appeared in the Basin 40A Preliminary Decree.

Source Name Objections

9. Objector did not overcome the prima facie status of the source name for any of the above-captioned claims. The claimed springs were named in accordance with the Claims Examination Manual to enhance the usefulness of the DNRC database. The source names should remain as they appeared in the Basin 40A Preliminary Decree.

RECOMMENDATIONS

Based on the foregoing Findings of Fact and Conclusions of Law, this Master recommends that the Court adopt the changes as outlined above.

A post decree abstract of each water right claim reflecting the recommended dismissals and changes is attached to this Report.

POST DECREE
ABSTRACT OF WATER RIGHT CLAIM
MUSSELSHELL RIVER, ABOVE ROUNDUP
BASIN 40A

Water Right Number: 40A 179809-00 STATEMENT OF CLAIM

Version: 3 -- POST DECREE

Status: ACTIVE

Owners: MC LAND & LIVESTOCK INC
241 S FRONTAGE RD
BIG TIMBER, MT 59011 8030

Priority Date: JANUARY 25, 1964

Type of Historical Right: FILED

Purpose (use): STOCK

Flow Rate: A SPECIFIC FLOW RATE HAS NOT BEEN DECREED BECAUSE THIS USE CONSISTS OF STOCK DRINKING DIRECTLY FROM THE SOURCE, OR FROM A DITCH SYSTEM. THE FLOW RATE IS LIMITED TO THE MINIMUM AMOUNT HISTORICALLY NECESSARY TO SUSTAIN THIS PURPOSE.

Volume: THIS RIGHT INCLUDES THE AMOUNT OF WATER CONSUMPTIVELY USED FOR STOCK WATERING PURPOSES AT THE RATE OF 30 GALLONS PER DAY PER ANIMAL UNIT. ANIMAL UNITS SHALL BE BASED ON REASONABLE CARRYING CAPACITY AND HISTORICAL USE OF THE AREA SERVICED BY THIS WATER SOURCE.

Source Name: SPRING, UNNAMED TRIBUTARY OF BIG COULEE CREEK

Source Type: GROUNDWATER

Point of Diversion and Means of Diversion:

<u>ID</u>	<u>Govt Lot</u>	<u>Qtr Sec</u>	<u>Sec</u>	<u>Twp</u>	<u>Rge</u>	<u>County</u>
1		SWSENE	28	4N	17E	SWEET GRASS

Period of Diversion: JANUARY 1 TO DECEMBER 31

Diversion Means: FLOWING

Period of Use: JANUARY 1 TO DECEMBER 31

Place of Use:

<u>ID</u>	<u>Acres</u>	<u>Govt Lot</u>	<u>Qtr Sec</u>	<u>Sec</u>	<u>Twp</u>	<u>Rge</u>	<u>County</u>
